IDENTITY CHECK

Your cell phone and date of birth. That's usually all we need.

Before you sign for your insurance claim funds, we confirm it's really you. It takes about two minutes.

Your cell phone number

The phone you carry every day, in your name. Not a spouse's, an office line or a landline.

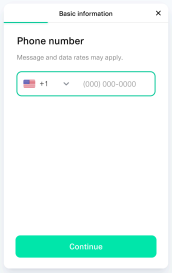

Your date of birth

As it appears on your driver's license or other government ID.

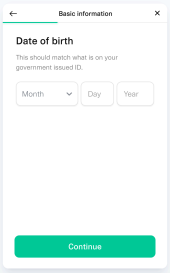

We text a 5-digit code to that phone. If we need anything else, the screen will tell you.

How it works

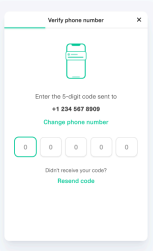

1. **Select Verify identity**
   On the signing page, then select **Continue** in the window that opens.
2. **Enter your cell phone number**
   Your own number.
3. **Enter your date of birth**
   Month, day and year.
4. **Enter the code we text you**
   Confirm your details, and you're back on the signing page, ready to sign.

2 · Enter your cell

3 · Enter your date of birth

4 · Enter the code

Stuck?

No code? Select **Resend code**. Wrong number? Select **Change phone number**.

"Unable to verify"? Select **Try again**.

Closed the window? Select **Verify identity** again.

Out of attempts? Email **support@iink.com** and we'll help you finish.
